Redefining On Water Living

THE ALL NEW ISOLA

Designed for All Seasons

Custom designed by our very own architects and engineers, Isola is a one-of-a-kind contemporary classic craft. With 500/750 sq ft of living space housing two bedrooms, one or two bathrooms, a capacious lounge and kitchen, plus an impressive rooftop garden, we've brought together all the best aspects of land and water living together in one unforgettable lifestyle experience.

High Spec Interiors

Fitted out to the highest specifications, from solid timber flooring and flush core internal doors, to PPC aluminium windows, we take the kind of luxury you'd expect on land and put it on the water.

The Grand Tour

Introducing Isola, our bespoke architect-designed craft built to the highest specifications. Let us take you on a tour around pure luxury on water.

A Place to Entertain

The large kitchen/dining and living area, finished to the highest specification – and complete with double doors that open onto the spacious veranda – makes this a great space for both relaxing and entertaining.

A Place to Sleep Soundly

Isola features two expansive, interior-designed bedrooms complete with fitted wardrobes and all of life's everyday luxuries.

On Water
Developments

A Place to Relax

The Isola bathroom is finished to the highest standards, with an exhaustive supply of hot water when required, a spacious shower, heated towel rails and flushing toilets making for an incredibly indulgent experience.

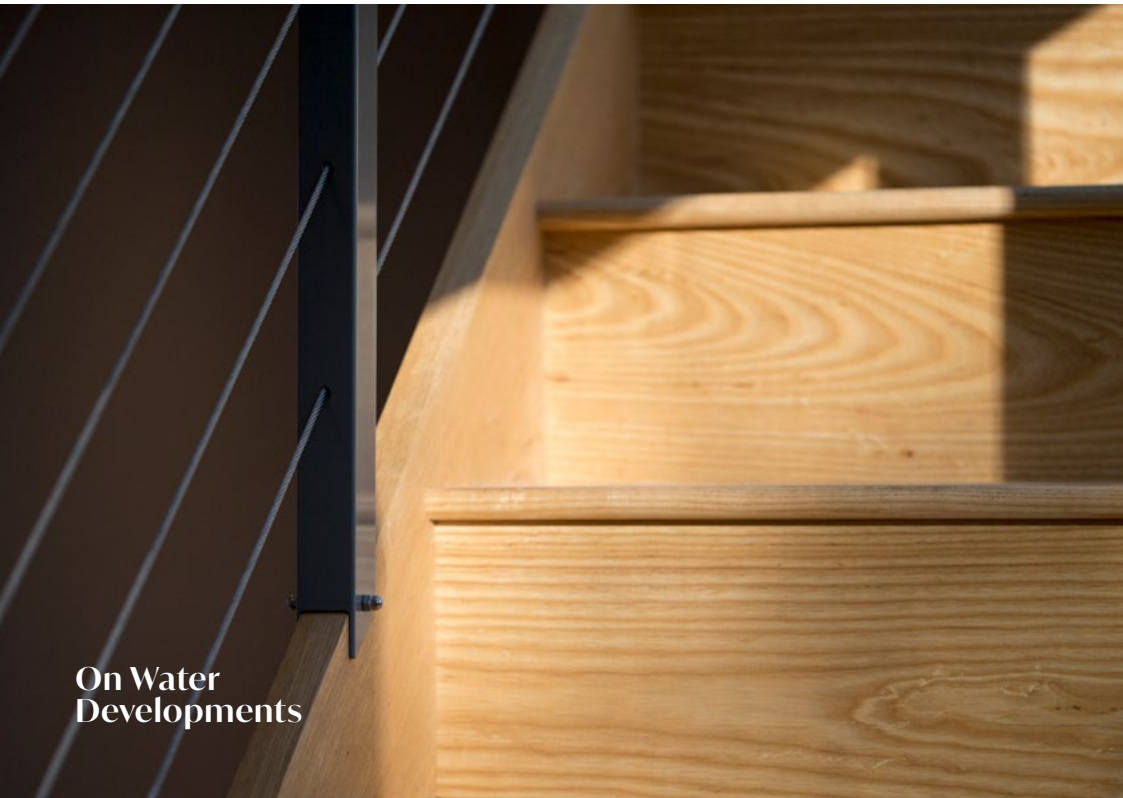

A Place in the Sun

As well as a spacious front terrace leading directly from the lounge, the Isola range has the opportunity of roof top access creating up to 500 sq ft of elevated garden.

The Delight is in the Detail

Isola is architecturally-designed and purpose-built to the highest specifications – with aluminium windows and solid wood flooring throughout – boasting details and finishes worthy of the most luxurious living spaces.
